SURVEY METHODOLOGY

Lake Research Partners designed and administered this survey, which was conducted by telephone in both English and Spanish using professional interviewers via landline, cell phone, and text to online from October 5 – 13, 2020. The survey reached a total 800 registered Latinx voters nationwide with additional samples of 100 registered Latinx voters in each of four states: Arizona, California, Florida, and Pennsylvania.

The base sample was weighted slightly by gender, region, region by gender, and age; the Arizona sample was weighted slightly by gender, age, and region; the California sample was weighted slightly by gender, age, and region; the Florida sample was weighted slightly by gender, age, region, and party registration; and the Pennsylvania sample was weighted slightly by gender, age, and region to reflect the actual number of registered Latinx voters. The state samples were weighted down into the base to reflect their actual proportion of Latinx voters nationwide.

The margin of error for the total sample is +/-3.5%, and the margin of error for the state samples are approximately +/-9.8%. In interpreting survey results, all sample surveys are subject to possible sampling error; that is, the results of a survey may differ from those which would be obtained if the entire population were interviewed. The size of the sampling error depends upon both the total number of respondents in the survey and the percentage distribution of responses to a particular question. For example, if 50% of respondents in a sample of 800 respondents answered “Yes” to a particular question, we can be 95% confident that the true percentage will fall within 3.5 points, or from 46.5% to 53.5%. The table below represents the estimated sampling error for different percentage distributions of responses.

**Margin of Error
for Different Percentage Distributions and Different Sample Sizes
(95% confidence)**

Sample Size	PERCENTAGES NEAR								
	10	20	30	40	50	60	70	80	90
1000	1.9	2.5	2.8	3.0	3.1	3.0	2.8	2.5	1.9

100	5.9	7.8	9.0	9.6	9.8	9.6	9.0	7.8	5.9

DEFINITIONS OF CREATED VARIABLES

PARTY ID

Democrat

Respondents who identify themselves as Democrats.

Independent

Respondents who identify themselves as independents.

Republican

Respondents who identify themselves as Republicans.

Indep. w/ weak partisan

Respondents who identify themselves as independents or as not strong Republicans or Democrats.

PARTY ID STRENGTH

Strong Democrat

Respondents who identify themselves as strong Democrats.

Weak Democrat

Respondents who identify themselves as not strong Democrats or as independents who lean towards Democrats.

Weak Republican

Respondents who identify themselves as not strong Republicans or as independents who lean towards Republicans.

Strong Republican

Respondents who identify themselves as strong Republicans.

REGION

Northeast

Respondents who live in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont, New Jersey, New York, or Pennsylvania.

Midwest

Respondents who live in Illinois, Indiana, Michigan, Ohio, Wisconsin, Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, or South Dakota.

South

Respondents who live in Washington, DC, Delaware, Florida, Georgia, Maryland, North Carolina, South Carolina, Virginia, West Virginia, Alabama, Kentucky, Mississippi, Tennessee, Arkansas, Louisiana, Oklahoma, or Texas.

West

Respondents who live in Arizona, Colorado, Idaho, Montana, Nevada, New Mexico, Utah, Wyoming, Alaska, California, Hawaii, Oregon, or Washington.

4. VOTE LIKELIHOOD

Likely

Voters who say they are almost certain or will probably vote in the 2020 Presidential Election in November.

Not Likely

Voters who say they are 50-50, will probably not vote, will definitely not vote, or are unsure whether or not they will vote in the 2020 Presidential Election in November.

WHO TRUST ON ISSUES

Biden on All

Respondents who say that they think Joe Biden would do a much better job or somewhat better job than Trump on the coronavirus, healthcare, prescription drug prices, and the economy.

Trump on All

Respondents who say that they think Donald Trump would do a much better job or somewhat better job than Biden on the coronavirus, healthcare, prescription drug prices, and the economy.

Conflicted

Respondents who do not say that Biden would do a better job handling all four of the following issues – the coronavirus, healthcare, prescription drug prices, and the economy, nor do they say that Trump would do a better job handling all four of the following issues – coronavirus, healthcare, prescription drug prices, and the economy.

**PROBLEMS WITH PRESCRIPTION
DRUGS INDEX**

3 or more

Respondents who say they have experienced three or more of the issues related to prescription drugs in Q17a-f.

1-2

Respondents who say they have experienced one or two of the issues related to prescription drugs in Q17a-f.

None

Respondents who say they have not experienced any of the issues related to prescription drugs in Q17a-f.
